EDUCATION

MS, University Of Michigan
Human Computer Interaction

BS, Drew University
Political Science

HARD SKILLS

Affinity diagramming
Accessibility knowledge
Contextual inquiry
Design systems
HTML/CSS/JS
Feature roadmaps
Mockup creation
Persona development
Project management
Prototyping
Survey creation & analysis
Usability testing
User interviews
Wireframing
Workflow creation
Workshop facilitation

SOFT SKILLS

Building cross-functional partnerships
Flexibility
Passion for learning new skills
Teamwork

TOOLS

AI (Cursor, ChatGPT, Figma Make)
Figma
Qualtrics
UserTesting / UserZoom

INDUSTRY EXPERIENCE

Automotive
Facility Management
Finance
Healthcare
Oil & Gas

EXPERIENCE

Senior Product Designer

3CLOUD / COGNIZANT
DEC 2024 - CURRENT

- Redesigned a CMS-style audit authoring platform by consolidating two legacy systems, performing heuristic analyses on workflows, and integrating new PM-defined requirements to deliver end-to-end flows for content creation, editing, review/comments, roles/access, and conditional logic.
- Owned end-to-end design lifecycle (synthesizing stakeholder input, initial screen development, interactive prototypes) while running regular reviews and showcases to drive fast iteration.
- Dealt with ever changing requirements and deadlines in a complex problem space while adopting to a major shift in our way of working two thirds of the way through the contract.
- Utilized AI tools (Cursor, Figma Make) in order to decrease turnaround time, increase client satisfaction, and minimize dev rework.
- Contributed to an AI in design playbook that is utilized by 3Clouders who are new to utilizing AI in their design workflow.

UX Lead

ONENGINE
JAN 2024 - SEPT 2024

- Oversaw the redesign of a B2B SaaS facility management vertical that contained information heavy flows all while dealing with broad & ambiguous requirements.
- Managed junior product designers through 1:1s, personalized coaching, & collaborative skill-building sessions such as weekly design reviews.
- Worked with product owners to develop requirements for various features & ensure that other product designers understood the given requirements.
- Led the development and refinement of wireframes, high fidelity mockups, and interactive prototypes for various features.
- Utilized participatory design during stakeholder meetings in order to get increased buy-in & get real time feedback on designs.
- Identified opportunities where AI could be utilized to benefit both the business & the end user.

Senior Product Designer

OMNICELL
NOV 2021 - NOV 2023

- Directed the comprehensive redesign of a complex data visualization heavy healthcare SaaS product vertical that resulted in a 50% reduction of unnecessary charts on the homepage.
- Advocated for a clear product vision by pushing leadership for a vision, drafted a vision statement, & then sought alignment with product and engineering before designing the solution.
- Cultivated strong relationships with product & engineering teams, leveraging these connections to lead roadmap planning activities.
- Designed & documented requirements for design system components to drive visual consistency and WCAG compliance.

Product Designer

FORD CREDIT
JUL 2019 - NOV 2021

- Managed the complete redesign of Ford Credit's customer portal, Account Manager. Employed techniques such as A/B tests in order to gather customer insights & gather testing results which were used to enhance Account Manager. Designed and led quarterly courses for emerging product designers, covering fundamental Sketch and InVision techniques.
- Led design thinking courses for cross-functional groups, guiding users through research, synthesis, prototyping, & iterative testing processes.

Product Designer

FORD AV
MAY 2018 - JUL 2019

- Was the lead designer for the Miami Experience rider app that was used by investors, journalists, and politicians during Ford's Miami Experience.
- Worked in conjunction with product owners to identify and order upcoming app features by priority.

Product Designer

GORIDE
JAN 2018 - MAY 2018

- Designed the initial customer caring website, billing portal, and email templates for GoRide, Ford's non-emergency medical transportation service.
- Performed ridealongs with drivers in order to gather feedback on the driver app for GoRide.

UX Designer

BOSCH
APR 2017 - DEC 2017

- Conducted heuristic analyses of existing products & provide recommendations as to how they can be improved.
- Led UX Focus Talks which featured presenters from different Bosch verticals talking about how utilizing UX methods was able to improve the end product.

Lead UI/UX Architect

GREENLANCER
JUN 2016 - MAR 2017

- Developed & maintained a design repository that detailed website elements as well as best practices that designers and developers should follow when designing new screens.
- Created & maintained a UX backlog containing feature requests from customers as well as the sales & production teams.
